#### **Case Study: Tai Esgyn**

*"With the support and advice from Chwarae Teg we've revised some of our existing policies and have implemented some new ideas. We work in a very high pressured environment with clients who cannot always be supported during the usual 9-5 working day. As such we could see that there was a strong business case for looking at different ways of working, not only from a productivity point of view but also from the standpoint of meeting our clients' needs."*
